SUBJECT INDEX

Aldosterone
  specific inhibition of the last steps of, biosynthesis by 18-vinylprogesterone in bovine adrenocortical cells, 141
Androgen(s)
  receptor(s)
    androgens are not major down-regulators of, levels during growth of the immature rat penis, 301
    hormone-binding and solubility properties of fusion proteins containing the ligand-binding domain of the human, 251
Aromatase
  effects of flavonoids on, activity, 215
  imidazole derivatives of pyrrolidonic and piperidonic acids as potential inhibitors of human placental, 73

Breast cancer
  an investigation of cut-points for primary, estrogen and progesterone receptor assays, 323
  dual regulation of the epidermal growth factor family of growth factors in, by sex steroids and protein kinase C, 1
  influence of droloxifene on plasma levels of insulin-like growth factor (IGF)-I Pro-IGF-IIE, insulin-like growth factor binding protein (IGFBP)-1 and IGFBP-3 in, patients, 167
  MCF-7, cells; estrogenic and antiestrogenic regulation of half-life of covalently labeled estrogen receptor in, 203

Cathepsin D
  retinoid regulation of human, gene expression, 283
cDNA clone
  molecular cloning and nucleotide sequences of, of sheep and goat adrenocortical cytochromes P-450scc (CYP11A1), 179
Corticosteroid-binding globulin
  regulation of, synthesis by 1α,25-dihydroxyvitamin D3 (calcitriol), 9-cis-retinoic acid and triiodothyronine in cultured rat fetal hepatocytes, 109
Cytochrome P450C11
  the hamster adrenal, has equipotent 11β-hydroxylase and 19-hydroxylase activities, but no aldosterone synthase activity, 125

Danazol
  effect of, on cell-to-cell adhesion and on E-cadherin and α- and β-catenin mRNA expressions, 275

Epidermal Growth Factor (EGF)
  dual regulation of the, family of growth factors in breast cancer by sex steroids and protein kinase C, 1
Estrogen(s)
  receptor(s)
    an investigation of cut-points for primary breast cancer, assays, 323
    estrogenic and antiestrogenic regulation of half-life of covalently labeled, in MCF-7 breast cancer cells, 203
    structural and functional analysis of N-terminal point mutants of the human, 293
Estrogen response element
  dissociation of 4-hydroxytamoxifen, but not estradiol or tamoxifen aziridine from the estrogen receptor as the receptor binds, DNA, 51
  kinetic analysis of the interaction of human estrogen receptor with an, 153
Estrone sulfatase
  heteroatom-substituted analogues of the active-site directed inhibitor estra-1,3,5(10)-trien-17-one-3-sulfamate inhibit, by a different mechanism, 79

Fibroblast Growth Factor-8
  expression of, in adult rat tissues and human prostate carcinoma cells, 173

Glucocorticoid(s)
lymphoid cell resistance to, in HIV infection, 259
pharmacological profile of the tachykinin receptor involved in the stimulation of corticosteroid secretion in the frog *Rana ridibunda*, 329
quantitative flow cytometry reveals a hierarchy of, effect on cell surface mouse mammary tumor virus Gp52, 33
receptor(s)
agonist-free transformation of the, in human B-lymphoma cells, 239
Glucuronosyltransferase
evidence for a role of, in the regulation of androgen action in the human prostatic cancer cell line LNCaP, 225
Growth factor(s)
dual regulation of the epidermal, family in breast cancer by sex steroids and protein kinase C, 1
expression of fibroblast, -8 in adult rat tissues and human prostate carcinoma cells, 173
in breast cancer patients, 167
Growth hormones
new insights in the molecular mechanism of progestin-induced proliferation of mammary epithclium; induction of the local biosynthesis of, in the mammary gland of dogs, cats and humans, 67

HIV infection
lymphoid cell resistance to glucocorticoids in, 259
Hormone response region
of mouse mammary tumour virus positions a nucleosome and precludes access of nuclear factor I to the promoter, 19

Leydig cells
in vitro studies of the subtypes of endothelin (ET) receptors present in the rat testis and of their involvement in the secretory response of, to ET-1, 89
LH/HCG
possible involvement of, -induced mitochondrial proteins in the regulation of steroidogenesis in bovine luteal cells, 233

MCF-7 breast cancer cells
estrogenic and antiestrogenic regulation of half-life of covalently labeled estrogen receptor in, 203
Mineralocorticoid(s)
receptor(s)
putative steroid binding domain of the human, expressed in *E. coli* in the presence of heat shock proteins shows typical native receptor characteristics, 43
sulfhydryl groups are involved in the binding of agonists and antagonists to the human, 315
Mouse mammary tumor virus (MMTV)
a hierarchy of glucocorticoid effect on cell surface Gp52, revealed by quantitative flow cytometry, 33
the hormone response region of, positions a nucleosome and precludes access of nuclear factor I to the promoter, 19

Progesterone
receptor(s)
an investigation of cut-points for primary breast cancer, assays, 323
Progestin(s)
effect of, on cell-to-cell adhesion and on E-cadherin and α- and β-catenin mRNA expressions, 275
Promoter
the hormone response region of mouse mammary tumor virus positions a nucleosome and precludes access of nuclear factor I to the, 19
Prostate
kinetic analysis of rat steroid 5α-reductase activity in, and epididymis homogenates at neutral pH, 95
evidence for Type I isozyme activity in the human, 103
Prostate carcinoma cells
expression of fibroblast growth factor-8 in adult rat tissues and human, 173

Prostatic cancer cell line LNCaP
evidence for a role of glucuronosyltransferase in the regulation of androgen action in the human, 225
Protein kinase C
dual regulation of the epidermal growth factor family of growth factors in breast cancer by, 1

Receptor(s)
androgen(s)
androgens are not major down-regulators of, levels during growth of the immature rat penis, 301
hormone-binding and solubility properties of fusion proteins containing the ligand-binding domain of the human, 251
endothelin
in vitro studies of the subtypes of, present in the rat testis and of their involvement in the secretory response of Leydig cells to ET-1, 89
estrogen(s)
an investigation of cut-points for primary breast cancer, assays, 323
dissociation of 4-hydroxytamoxifen, but not estradiol or tamoxifen aziridine from the, as the receptor binds estrogen response element DNA, 51
estrogenic and antiestrogenic regulation of half-life of covalently labeled, in MCF-7 breast cancer cells, 203
kinetic analysis of the interaction of human, with an estrogen response element, 153
structural and functional analysis of N-terminal point mutants of the human, 293
glucocorticoid(s)
agonist-free transformation of the, in human B-lymphoma cells, 239
inositol 1,4,5-triphosphate
expression of, in rat adrenocortical zones, 13
mineralocorticoid(s)
putative steroid binding domain of the human, expressed in *E. coli* in the presence of heat shock proteins shows typical native receptor characteristics, 43
sulfhydryl groups are involved in the binding of agonists and antagonists to the human, 315
progesterone
an investigation of cut-points for primary breast cancer, assays, 323
retinoic acid
dexamethasone decreases the expression of, in rat liver, 161
vitamin D
regulation of, mRNA expression and responsiveness by forskolin, 265

Steroid 4-chloro-1,2-dehydro-17α-methyltestosterone
gas chromatography/mass spectrometry identification of long-term excreted metabolites of the anabolic, in human, 363
Steroid 5α-reductase
CGP 53153: a new potent inhibitor of, 187
kinetic analysis of rat, activity in prostate and epididymis homogenates at neutral pH: evidence for Type I activity in epididymis, 95
kinetic analysis of rat, activity at neutral pH in benign prostatic hyperplastic tissue: evidence for Type I isozyme activity in the human prostate, 103
Sterol 27-hydroxylase
regulation of, and an alternative pathway of bile acid biosynthesis in primary cultures of rat hepatocytes, 337

Testis
in vitro studies of the subtypes of endothelin (ET) receptors present in the, of rat and of their involvement in the secretory response of Leydig cells to ET-1, 89
Testosterone
metabolism in new squamous cell carcinoma cell line (RSS18) from 7,12-dimethylbenz[a]anthracene-induced submandibular gland of female rat, 349
metabolism of, derivatives in *Absidia coerulea* culture, 357

Vitamin D
demonstration of, expression in a human megakaryoblastic leukemia cell line, 265

enhancement of the antiproliferative activity of, $1\alpha,25(OH)_2D_3$(analogs) by cytochrome P-450 enzyme inhibitors is compound- and cell-type specific, 197
metabolism of the cell differentiating agent $1\alpha,25(OH)_2$-16-ene-23-yne(D_3) by leukemic cells, 117
receptor(s)
regulation of, mRNA expression and responsiveness by forskolin, 265

We would like to express our deep thanks to the following persons for their kind collaboration in reviewing papers for this volume of *The Journal of Steroid Biochemistry & Molecular Biology*:

BARTNER C., N. Carolina, U.S.A.
BODWELL J., New Hampshire, U.S.A.
BRINKMANN A. O., Rotterdam, The Netherlands
BRUCHOVSKY N., Vancouver, Canada
CERIANI R. L., California, U.S.A.
CLARKE R., Washington, U.S.A.
KATZENELLENBOGEN J. A., Illinois, U.S.A.
KRIEG M., Bochum, Germany
LABRIE C., Quebec, Canada
LING Z., Maryland, U.S.A.
LONGCOPE C., Worcester, U.S.A.
LUU-THE V., Quebec, Canada
MERAND Y., Quebec, Canada
NUSSDORFER G. G., Padova, Italy
ROWLANDS M. G., London, U.K.
SIMARD J., Quebec, Canada
SKAAR T., Washington, U.S.A.
VINSON G. P., London, U.K.
WEBSTER J. C., N. Carolina, U.S.A.
